PROFILE

I am a personable student currently studying towards a Bachelor of Technology Honors Degree in Computer Science with Harare Institute of Technology (HIT). I am an organized, goal-oriented self-starter who applies individual initiative to get the job done. I have a proactive attitude and finds positive ways to stimulate and engage with people.

PERSONAL DETAILS

Date of Birth	23 May 1995
Gender	Male
Languages	English, Shona
Marital Status	Single
National ID	75 - 473587 G50
Nationality	Zimbabwean

SUMMARY OF QUALIFICATIONS

Tertiary Level

Harare Institute of Technology (HIT)

Currently pursuing a Bachelor of Technology Honors Degree in Computer Science expected to graduate in 2020.

Relevant Completed Courses: I completed courses in Database Design Concepts, Software Project Management, Programming Languages, Operating Systems, Operations Research, Systems and Network Design and Embedded System Design.

Project Experience: As my Second-Year project, I am currently developing a Medical Portal Billing System which allows bills to be posted and viewed in real time. I am developing it using PHP, Bootstrap, JavaScript, and SQL.

Advanced Level (Graduated 2015) Christian College of Southern Africa(CCOSA), Harare

3 passes in Mathematics, Physics and Chemistry

Ordinary Level (Graduated 2012) St Dominic's High School, Mutare

Passed 10 subjects including Mathematics and English

TECHNICAL SKILLS

For Software Development I have used the following:

Programming Languages

- Java, JavaScript, C, C++, HTML, CSS, PHP, Python, VB.Net, SQL

Applications

- Visual Studio Code, XAMPP, Android Studio, GIT
Version Control.

Operating Systems

- Windows and Linux based Operating Systems

PERSONAL SKILLS

- Proficient in using technology to enhance data and information management.
- Ability to grasp new ideas and integrate them into desired results.
- Enjoy working as a team member as well as independently.
- Attention to detail, good time management and analytic skills

RESEARCH INTERESTS

The following represents the key activities that I am more interested in:

- Software Development and Engineering (Agile Front-End and Back-End, Web and Android Development) using latest technologies and languages like Java, C++, PHP, Ruby
- Database Design and Administration (MySQL, PostgreSQL, MongoDB)
- Data Science, Artificial Intelligence and Machine Learning
- UI /UX Designing (User Interface and User Experience Designing)
- Entrepreneurship and Innovation
- Testing and evaluating new technology
- Supporting the roll-out of new applications or updates
- Providing support, including procedural documentation and relevant reports
- Monitoring and proactively maintaining computer systems and networks
- Troubleshooting system and network problems and diagnosing and solving hardware or software faults.

INTERESTS AND ACTIVITIES

- Playing Soccer
- Watching Cricket
- Surfing the internet to learn new things
- Socializing with all
